Building

Curtains up for Reynolux[®]

The Agora Theater in Lelystad, Holland is a distinctive structure. The architect's office of UN Studio aimed to create an outstanding façade design based on a diversity of shapes and colours. Reynolux[®] Building coil coated aluminium sheets were the perfect choice for opening up a variety of creative design possibilities, while offering high weather resistance.

The ease of processing, the large selection of standard dimensions, and our underlying customer care are all aimed at fulfilling your individual needs: these are the key factors making Reynolux[®] Building the product of choice for more and more users. Also be the "best in show" with Reynolux[®] Building.
