

Reynobond®
Sign & Display

Making your grand ideas come to life!

Aluminium composite panels from Reynobond® Sign & Display work brilliantly with digital printing and photo reproduction. And with Reynobond® XXL available in 2000 mm width, you now have a real alternative for implementing your grand ideas. Plus all of the main benefits that make the Reynobond® Sign & Display product range stand out: excellent quality with extreme flatness and optimum stiffness while preserving the easiness of processing.

Our Reynobond® Sign & Display products are coated with a high performance, UV and weather-resistant polyester coating. Whether for screen printing, application of adhesive foils or post painting – with Reynobond® Sign & Display your grand ideas will come to life.
