Reynobond Colors Now Available in Matching Reynolux Profiles & Flat Sheet

Alcoa Architectural Products is pleased to announce that all of our standard Colorweld® 500 Architectural colors for Reynobond are now available in matching Reynolux Profiles and .040" x 48" Coil and Flat Sheet. Reynobond Aluminum Composite Material and Reynolux Metal Wall Panels, Flat Sheet and Coil are provided in full strength Kynar Resin Paint Systems, ensuring color matching between products.

All Reynobond Architectural colors are stocked in 62" wide coil (ask about availability in 50" coil) and all Reynolux colors are stocked in .040" x 48" widths. Other gauges and widths are available upon request with minimum quantities and charges. In addition, other industry standard "non-stocking" colors are available upon request.

Please call your sales manager or customer service representative at 1-800-841-7774 for availability or visit our website at www.reynobond.com or www.reynolux.com.
