Alcoa 24.5” LvL ONE® Wheel

The Strongest, Lightest and Brightest Wheel In It’s Class.
Alcoa’s LvL ONE® wheel technology with proven 6061 alloy results in a lightweight heavy weight. Alcoa LvL ONE® 24.5” wheels are super strong, super light and super bright.

Super Strong
With a load rating of 7,400 lbs., there’s nothing stronger in its class.

Super Light
Alcoa’s advanced LvL ONE® technology really pays off. Weighing in at just 54 lbs., these wheels offer the highest load rating at the lowest class weight.

Super Bright
LvL ONE® technology results in a brilliant shine on both sides for the ‘7’ finish option.

Additional Benefits
Selection of the ‘7’ finish option simplifies part numbers and reduces inventory by providing a wheel that can be mounted in any position.
One piece forged aluminum strength that’s 5x stronger than steel.
True cool running extends tire and brake life.
Same five year limited warranty you’ve come to expect from Alcoa.
WHEEL SPECIFICATIONS

Alcoa aluminum disc wheel mounting dimensions are consistent with SAE Recommended Practice J694 June 2007.
