

## Tough Jobs Demand Tough Wheels

Refuse collection, logging, mining and other heavy haul applications demand a tough wheel made by Alcoa. Spec the only aluminum wheels built for your tough job.

### Less Weight, better fuel economy and more payload

- Weighs 62 pounds, 41 fewer pounds than a comparable steel wheel

### Strength you need, Strength we provide

- Load rated to 10,000 Lbs

### Added advantages

- One piece forged strength
- No painting, lower maintenance costs
- True cool running extends tire and brake life
- Over 60 years of wheel experience
- Backed by our five year limited warranty

# WHEEL SPECIFICATIONS

Alcoa aluminum disc wheel mounting dimensions are consistent with SAE Recommended Practice J694 June 2007. Part numbers listed in chart below ending in zero have a brush finish. Polish finishes are indicated by changing the last numerical digit of the part number to one of the following. For mirror polish on the outside only, the number is "1". For mirror polish on the inside only, the number is "2". For mirror polish on both sides, the number is "3".

## CLASSIC TUBELESS WHEELS (Round Hand Holes) – ENGLISH and METRIC UNITS

10 Hole, Hub Pilot Mounting System – 285.75mm Bolt Circle, 220.1mm Hub Bore Forged Aluminum Wheel
