

ALCOA RETRO WHEELS

Alcoa Wheels Stand the Test of Time

Alcoa Wheel and Transportation Products introduces a new wheel with a "retro" look to celebrate 60 years of innovation and technology.

The wheels have incorporated styling from the past with innovation from today's technology. Alcoa will offer two new styles for the commercial vehicle aftermarket in a limited edition. Part number 88060X is available in a 22.5 x 8.25 size and weighs 53 lbs. Part number 98060X is available in a 24.5 x 8.25 and weighs 66 lbs. Both wheel styles have hub piloted mounting systems with a load rating of 7400 lbs.

Only one original. Good looks that last.

More advantages:

- Classic styling
- One-piece forged strength
- Never needs painting, so you reduce maintenance
- Cool, true run extends tire and brake life
- Backed by our five-year limited warranty – and 60 years of genuine Alcoa aluminum wheel experience
