

**Alcoa Wheels Manufacturer's Warranty – Aftermarket Wheels
ONE-PIECE FORGINGS
(Revised 07/2011)**

5-Year Limited Structural Warranty for Aftermarket Wheels

Alcoa warrants to the original purchaser that a new Alcoa one piece forged aluminum aftermarket wheel ("Wheel") is free from structural defects in material and workmanship and agrees, without charge, to repair or replace a Wheel which fails in normal use and service because of structural defects in material and workmanship. Wheels are warranted to the original purchaser for 60 months from the date of purchase. Proof of original ownership shall be evidenced by invoice or bill of sale in the name of the original purchaser. This warranty is not transferable. Alcoa does **not** warrant the surface treatment of Alcoa polished Wheels. The warranty for the surface treatment of Alcoa Dura-Bright® Wheels does not apply to Alcoa polished Wheels.

5-year Limited Surface Treatment Warranty for Alcoa Dura-Bright® Wheels

For those Wheels sold with the Dura-Bright® surface treatment, Alcoa warrants to the original purchaser for 60 months from the date of purchase the Dura-Bright® surface treatment against (i) filiform corrosion (worm or hair like lines, generally milky in appearance, underneath surface protective treatment and emanating from damage to the surface treatment such as nicks, scratches or damage from mounting hardware or wheel weights), (ii) blistering due to loss of adhesion of the surface treatment and (iii) lift off of the surface treatment due to physical damage (nicks, scratches, gouges). Proof of original ownership shall be evidenced by invoice or bill of sale in the name of the original purchaser. This warranty is not transferable.

- Using the Wheel in racing or competition.
- Installing the Wheel without the correct lug nuts or procedures.
- Damaging the surface during tire mounting and installation due to the use of improper tools or by balancing with clip on wheel weights.
