

Kommercial

A social enterprise

**Hospitality - Packaging
Landcare - Industrial**

Welcome to Kommercial

As a division of Karingal, Kommercial has provided employment for people with a disability for over half a century.

Kommerical is a social enterprise committed to providing a supportive work environment while operating to the highest commercial standards.

Packaging, Landcare, Industrial and Hospitality are Kommercial's four main business units employing over 160 people including more than 120 supported employees.

Kommerical operates from six locations across Geelong including two factories in North Geelong, Alcoa's Point Henry plant, the CSIRO AAHL in Moolap, Barwon Water at Black Rock and the Shell Refinery in Corio.

Kommerical is quality assured through ISO 9001:2000 and the Disability Support Standards (DSS).

Kommercial Packaging

Packaging crews operate at Alcoa and both the Kommercial factories in North Geelong doing a variety of work including bar coding, product assembly, large scale mail outs, product re-work, shredding, wine bottle de-labeling and product packing.

Kommercial Landcare

Landcare crews specialise in industrial landcare and large scale grounds maintenance with two crews permanently located at Alcoa. A further two mobile crews are assigned full-time to Shell and Barwon Water while another crew services St John of God Hospital.

Kommercial Industrial

The Industrial crew primarily undertakes timber processing work, including the recycling of waste timber for Geelong company - Timbertruss. The crew is based at the Douro Street factory operating a wood-chipping machine and a number of saws for cutting noggins and small trusses.

Kommercial Hospitality

The Hospitality arm runs the Kommercial Café @ Alcoa and the Kommercial Café @ CSIRO AAHL. The cafés look after the food service requirements for both facilities located in Moolap. It also operates a school lunch service for Geelong schools and a corporate catering service.
