

She doesn't have to plant  
trees to offset carbon emissions.  
But she does.

At Alcoa, we're a world leader in mine site rehabilitation, but did you know about the trees we plant to tackle climate change? Our worldwide 'Ten Million Trees' program aims to plant 10 million new trees by 2020, which will absorb more than 250,000 tonnes of carbon dioxide each year. And over the past 25 years, we've committed more than \$22 million to support environmental projects across Australia. To find out more, visit [www.alcoa.com.au](http://www.alcoa.com.au) today.
