

Alcoa World Alumina Australia is the global leader in alumina production and Australia's sixth largest resources sector exporter. Alcoa is an integrated business comprised of bauxite mining, alumina refining, aluminium smelting, rolling and canned sheet products, with operations in Victoria, Western Australia and New South Wales.

## Heavy Duty Plant Mechanic

In 2012, opportunities are available for Heavy Duty Plant Mechanic apprentice positions at our Willowdale Minesite.

As an apprentice in this trade you will be based in the main workshop of one of Alcoa's minesites. Your training will involve repairs on engines, transmissions, brakes, hydraulic and electrical systems. You will be working on a variety of vehicles including heavy earth moving equipment, front end loaders, large ore carrying trucks, as well as four wheel drive utility and passenger vehicles.

As you progress you will be given additional training in fields associated with your trade, including vehicle auto-electrics, air conditioning, hydraulics and welding.

Your work will not only require you to stand for long periods of time but on occasions you will have to work in cramped positions.

An interest in heavy duty equipment and a high degree of manual dexterity are essential for this trade.

To apply for apprentice opportunities in this field, please visit [www.alcoa.com.au/apprenticeships](http://www.alcoa.com.au/apprenticeships) to download an **Application Form**.
