

Bauxite Mine Diorama

Topic: Mining and Rehabilitation

Background Information

Bauxite mining is surface mining. Throughout the Huntly mine site there are areas of Jarrah Forest that have not been mined, operational mine pits and areas that have been mined and rehabilitated

What You Need To Do

- List the local and regional features of a bauxite mine
- Create a diorama of a bauxite mine encompassing the different areas on a bauxite mine site.

Extension/Alternatives

- Create a diorama of a bauxite mine pit.
