

## Bauxite Mine Diorama

### Topic: Mining and Rehabilitation

#### Background Information:

Bauxite mining is surface mining. Throughout the Huntly mine site there are areas of Jarrah Forest that have not been mined, operational mine pits and areas that have been mined and rehabilitated

#### What You Need To Do:

- List the local and regional features of a bauxite mine
- Create a diorama of a bauxite mine encompassing the different areas on a bauxite mine site.

#### Extension/Alternatives

- Create a diorama of a bauxite mine pit.
