

CAMLOC®

1/4-Turn Fasteners & 51L Series Latches

There are imitators, but there's only one Camloc® 1/4-turn and latch manufacturer. Alcoa Fastening Systems.

So when you want the standard of quality and performance, do what the best engineers have been doing for over 60 years. Call us. (800) 992-4444 or (805) 527-3600.

We offer competitive prices and a knowledgeable staff to assist with your needs in securing the most sophisticated equipment used in the electronics, industrial, transportation, aerospace, and defense markets.

Our 1/4-Turn Fasteners provide:

- The quickest operating high re-use fastening systems available
- Secure locking and quick unlocking with a simple 90° (1/4-turn) rotation
- Low installed cost
- The broadest product offering of any panel fastening system
- Manufactured from wide range of materials
- Installation and removal tools also available

Our 51L Series Tension Latches feature:

- Adjustable threaded drawhook
- Under-center toggle geometry to ensure positive lock-up even when latch and strike are mounted on different geometric planes
- Numerous styles to choose from
