Our Alcoa Fastening Systems facility in Simi Valley, California

provides expert sales and distribution services to a wide variety of customers throughout North America. This modern AS9100 and ISO9001:2000 approved 90,000 sq. ft. facility manages the distribution and logistics of more than 100,000 part numbers.

As part of the Alcoa Fastening Systems family, AFS Simi Valley represents a world leader in the design and manufacture of high-performance and quality aerospace fasteners and fastening systems, providing a wide array of services that include special packaging, kitting and inventory management programs.

In addition to the traditional fastener brand names offered by Alcoa Fastening Systems, we are also an authorized distributor for ArvinMeritor (gas springs), Barry Controls (equipment mounts), Groov-Pin (inserts), Kato Fastening Systems (tanged and tangless inserts and tools) and Vlier (leveling devices). Always focused on our customers, Alcoa Fastening Systems Simi Valley promises to provide outstanding service from quotation to delivery. We invite you to contact us at your first opportunity.
