

## **NEW THRUST BUSHING FOR MODEL 350 H.I.T.**

**Upper Thrust Bushing, P/N 83286** (Index No. 3 in Model 350 Instruction Manual) and **Front Lower Arm Bearing, P/N 83285** (Index No. 4 in Model 350 Instruction Manual) have been obsoleted and superseded by **Thrust Bushing, P/N 111100**. This is effective immediately for replacement parts and for Model 350 Huck Installation Tools, beginning with Serial No. 4327.

The new Thrust Bushing is a (factory assembled) three piece assembly designed for longer life by eliminating thin sections and by utilizing new material and heat treat.

The new Thrust Bushing is fully interchangeable with the obsolete parts which are no longer available.
