### C50L to MG Conversion

Conversion Kits 113409, 113408, 113407 and 113406 are obsolete and no longer available.

In 1980, conversion kits were offered to encourage C50L users to convert to the Magna-Grip Fastening System. Kingston Product Engineering has redesigned Magna-Grip collets as illustrated below and, therefore, C50L collets are not interchangeable with MG collets—C50L collets cannot be used in MG noses.

Figure shown below illustrates difference between C50L and MG Collets.
