Huntly Bauxite Mine

Operations
- Huntly Bauxite Mine is the world’s second largest bauxite mine, supplying ore to Pinjarra and Kwinana alumina refineries. It was established in 1976 and is located near Dwellingup in Western Australia.
- In 2018 Huntly mine supplied approximately 26 million tonnes of bauxite via a direct overland conveying system to Pinjarra Alumina Refinery, and via an overland conveyer and rail to Kwinana Alumina Refinery. The current crusher is located at Myara.
- Huntly mines bauxite from within a defined Mineral Lease, known as ML1SA.
- Alcoa’s mining operations are overseen by the Mining and Management Program Liaison Group (MMPLG), which consists of representatives from across government. The MMPLG is responsible for reviewing mine plans and associated activities and making recommendations to the Western Australian Minister for State Development.
- Bauxite ore from Huntly and Willowdale mines helps to produce approximately 45 per cent of Australia’s alumina and 19 per cent of Australia’s aluminium.

Economic Impact
- Approximately 560 people work at Huntly mine.
- In 2018, the mine injected approximately AU$85 million into the local community through salaries, wages and benefits, and more than AU$200 million in local WA supply contracts.
- In 2018, Alcoa’s Australian operations injected approximately AU$690 million into Australia’s local, state and federal governments through the payment of royalties, taxes, rates and charges. Approximately AU$114 million was paid to Western Australian local and state governments.
- More than 65 per cent of Alcoa of Australia’s total annual revenue stays in Australia through wages, local purchasing, taxes, royalties and dividends to Australian shareholders.
- Alcoa of Australia produces an annual Tax Transparency Report and voluntarily established an Annual Compliance Arrangement with the Australian Tax Office in 2012.

Community Engagement
- Huntly mine engages with the community through a variety of community engagement activities and forums.
- In 2018, Huntly and Willowdale mines invested approximately AU$100,000 into local community organisations through sponsorships and partnerships, along with further in-kind contributions.
- Overall, Alcoa Foundation and the Australian operations invested AU$3.8 million into areas of need and worthy causes in communities near where we operate in Western Australia.
- In 2018, Alcoa employees initiated 52 Alcoans Coming Together In Our Neighbourhoods (ACTION) events which saw local community organisations benefit from employees’ volunteer support.

Environment and Sustainability
- Alcoa is a recognised world leader in mine site rehabilitation and is the first mining company in the world to achieve 100 per cent plant species richness in our rehabilitated mine site areas.
- Each year, approximately 600 hectares of mined land is rehabilitated helping restore the forest ecosystem.
- Alcoa has rehabilitated more than 20,000 hectares – that’s more than 10 Rottnest Islands – since its bauxite mining and associated alumina refining operations started in WA in 1963.
- Environmental stewardship is our priority. We implement industry-leading processes and techniques to mitigate biodiversity impacts from our operations.
Alcoa in Australia

- Alcoa has operated in Australia for more than 56 years and in this time more than AU$12 billion has been invested by its Australian operations.
- Alcoa’s Australian operations represent one of the world’s largest integrated bauxite mining, alumina refining and aluminium smelting systems.
- Two bauxite mines and three alumina refineries in Western Australia produce almost 45 per cent of Australia’s alumina. In Victoria, Portland Aluminium Smelter (which is 55 per cent owned by Alcoa of Australia) produces approximately 19 per cent of the nation’s aluminium.
- Alcoa employs thousands of people, predominantly from regional Western Australia and Victoria, and adds value to Australia’s local, state and national economies at every stage. Alcoa employs 4,250 employees and in 2018 paid AU$668 million in wages and benefits.
- Alcoa’s values ensure that we act with integrity, operate with excellence and care for people.
- Alcoa has been named an employer of choice for 17 consecutive years by the Federal Government’s Workplace Gender Equality Agency (WGEA). Flexible work practices at Alcoa mean that employees can balance their personal interests and family life alongside their work commitments.

Alcoa Corporation

- Alcoa Corporation is a global industry leader in bauxite, alumina and aluminium products, and is built on a foundation of strong values and operating excellence dating back more than 130 years to the world-changing discovery that made aluminium an affordable and vital part of modern life.
- Since developing the aluminium industry, and throughout the company’s history, our talented employees have followed on with breakthrough innovations and best practices that have led to efficiency, safety, sustainability and stronger communities wherever we operate.
- Alcoa was named the Aluminium Industry Leader in the 2019 Dow Jones Sustainability Index (DJSI); a respected benchmark for corporate sustainability. Only the most sustainable companies in each industry are considered for DJSI membership.
