

Willowdale Bauxite Mine

Address: PO Box 84, Waroona, Western Australia, 6215

Phone: +61 8 9733 8832

Business: Alcoa Mining

Product: Bauxite

Certifications: ISO 14001

Mine Manager: Trever Stockil

Overview	<ul style="list-style-type: none"> Willowdale mine was established in 1984 and is located near Waroona. It mines and supplies bauxite ore to the Wagerup alumina refinery. In 2016 Willowdale mine supplied approximately 9 million tonnes of bauxite to the Wagerup alumina refinery via a direct overland conveying system. The current ore crusher is located at Orion. Willowdale mines bauxite from within a defined Mineral Lease (known as ML1SA). Alcoa's mining operations are overseen by the Mining and Management Program Liaison Group (MMPLG), which consists of representatives from across government. The MMPLG is responsible for reviewing mine plans and associated activities and making recommendations to the WA Minister for State Development. Bauxite ore from Willowdale and Huntly mines helps to produce approximately 43 per cent of Australia's alumina and 20 per cent of Australia's aluminium.
Economic Impact	<ul style="list-style-type: none"> Approximately 250 people work at Willowdale mine. In 2016, the mine injected approximately AU\$39 million into the community through salaries, wages and benefits, and more than AU\$24 million in local WA supply contracts. In 2016, Alcoa of Australia injected approximately \$250 million into Australia's local, state and federal governments through the payment of royalties, taxes, rates and charges. Approximately \$88.5 million was paid to Western Australian local and state governments. More than 75 per cent of Alcoa of Australia's total annual revenue stays in Australia through wages, local purchasing, taxes, royalties, capital investment and dividends to Australian shareholders.
Community	<ul style="list-style-type: none"> In 2016, Willowdale mine invested approximately AU\$30,000 into local community organisations through sponsorships and partnerships, along with further in-kind contributions. Employees also initiated volunteer-based grants of approximately AU\$42,000 for community partners and contributed almost 600 hours of community volunteering. Find out more at http://www.alcoa.com/australia/en/sustainability/community-partnerships.asp
Environment	<ul style="list-style-type: none"> Alcoa is a recognised world leader in mine site rehabilitation and is the first mining company in the world to achieve 100 per cent plant species richness in our rehabilitated mine site areas. Every year, approximately 600 hectares of mined land is rehabilitated, helping restore the forest ecosystem. Environmental stewardship is our priority and we implement industry-leading processes to mitigate biodiversity impacts from our operations on plants, animals and natural resources.
